

LOCTITE® Thread Treatment Sticks

Solid Performers With a Twist

248 Medium Strength & 268 High Strength Threadlocker Sticks

- Medium & high strength threadlocker eliminates loosening from vibration, shock and thermal expansion
- More reliable and cost effective than conventional mechanical fasteners
- Prevents rust & corrosion while sealing and protecting threads
- Equivalent formula to 242 and 262 liquid threadlockers

PST® 561 Thread Sealant Stick with Teflon®

- Immediate low pressure sealing to 100 psi
- Controlled lubricity prevents galling
- Protects threaded areas from rust and corrosion
- Provides exceptional fluid compatibility and chemical resistance
- Will not contaminate or clog lines

C5-A® Copper & Silver Grade Anti-Seize Sticks

- C5-A® protects metal parts in high heat environments up to 1800°F
- Silver Grade protects metal parts in high heat environments up to 1600°F
- Prevents rust, corrosion, seizing and eases disassembly
- Reduces friction and wear to critical parts
- Buttery texture ideal for both coarse and fine threads

DYKEM Layout Fluid

Machine shop operators depend on Dykem layout fluids to scribe sharp, clear, precise lines.

- Toluene free formula for workers' safety
- Provides a uniform, deep color that prevents glare
- Dries in minutes, reduces eyestrain
- Provides an extremely thin coating which adds practically no thickness to the workpiece
- Remains flexible without cracking or chipping

DYKEM Brite Mark Paint Markers

Dykem Brite Mark is a general purpose marker that writes on almost any surface and features a precision tip for clear, distinct markings. Its quick drying, oil based paint withstands indoor and outdoor conditions.

- Makes permanent bright marks on metal, rubber, plastic, glass, concrete, stone, vinyl and more
- Valve action mechanism prevents paint in barrel from drying when the cap is left off
- Drying time: 25-35 seconds
