

GUARDAIR Force 5™ Air Gun

NEW!

Advanced Venturi Nozzle Serves Two Purposes:

1) DELIVERS FULL POWER

The Force 5 air gun delivers 100% of the power as supplied by the air compressor. Air speed increases as it passes through the side ports. The increased volume of air greatly intensifies power at the tip.

2) MEETS OSHA STANDARDS

Should the nozzle become blocked, all of the air flow exits through the side ports. The dead-end pressure at the tip is held to less than 30 psi.

- Lightweight, heavy duty air gun with aluminum extension provides longer reach for cleaning hard-to-get-at areas
- Adjustable auxiliary handle for two-handed operation
- Dead-man trigger assures safe operation
- 3/4" FNPT inlet optimizes flow and power

TECHNICAL SPECIFICATIONS:

Inlet Pressure (psig)	80	100	120	150
Thrust (lbf)**	13	16	18	24
Flow (SCFM)*	170	208	244	302
Dead End Pressure (psig)**	15	17	21	29

*Measured using 10' of 3/4" ID hose with 3/4" "Air King" fittings (LW55-34AKM05)
 **Measured using 10' of 3/4" ID hose directly connected to gun, no fittings
